

- **General Trade Analysis**

1. What are the top 10 countries India trades food with in terms of volume or value?
2. How has India's total food import and export volume changed from 1986 to 2022?
3. What are the major food commodities that India imports and exports?
4. Which regions does India import most of its food products from, and which regions are its top export destinations?
5. How do the import/export trends of food differ between developed and developing countries?
6. What is the overall trade balance (exports minus imports) for India in the food sector?

- **Commodity-Specific Analysis**

1. Which food items have seen the most significant growth in exports over the years?
2. Which commodities has India imported the most over the past decade?
3. Are there specific food items that India predominantly imports from particular countries?
4. What are the top export items for India in the food trade sector?
5. How does the trade volume of processed vs. unprocessed food items compare over the years?
6. Which commodity categories (e.g., grains, fruits, vegetables) show consistent trade surpluses or deficits?

- **Time-Series Analysis**

1. How have India's food imports and exports evolved year by year?
2. Are there any notable trends or patterns in India's food trade during major global events (e.g., financial crises, pandemics)?
3. How do seasonal fluctuations affect India's food trade patterns?

4. What was the impact of specific policies (like trade agreements or tariffs) on India's food trade with certain countries?

- **Partner Countries and Regional Insights**

1. How has India's trade with its neighboring countries (e.g., China, Pakistan, Bangladesh) evolved?
2. What are the differences in trade patterns between regions such as Asia, Europe, and North America?
3. Which countries have shown the most significant increase in food imports from India?
4. Which regions have consistently been net exporters or importers of food products to/from India?

- **Economic & Financial Insights**

1. How does the unit value (1000 USD) of imports compare to exports across the years?
2. Which countries trade the most valuable food items with India in terms of dollars (USD)?
3. What are the most valuable food commodities in India's exports?
4. Is there a correlation between trade volumes and economic conditions (e.g., GDP) of partner countries?

- **Trade Policies & Tariffs**

1. How have trade restrictions, tariffs, or sanctions affected India's food imports and exports with specific countries?
2. Are there any visible effects of trade agreements or regional trade blocs (e.g., SAFTA, ASEAN) on India's food trade?

- **Environmental & Sustainability Aspects**

1. How has the import of specific agricultural goods (e.g., palm oil) with high environmental impact changed over time?
2. How have trends in imports/exports of organic or sustainable food products evolved in recent years?

- **Miscellaneous**

1. 29. Are there particular food items that India has stopped importing/exporting over the years?
2. 30. Which countries show consistent food trade relationships with India, regardless of global economic changes?
